BALARAM SWAIN

PROFESSIONAL SUMMARY

- Having around 7 years of experience as a Full stack Java developer.
- Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.
- Implemented Java Collection Framework for representing and manipulating collections, enabling collections to be manipulated independently of implementation details.
- Having experience in microservice using **Spring boot**. Deep knowledge of annotation and xml configuration file in both spring and hibernate.
- Good knowledge in persistent technology like Hibernate, JPA and **Spring Data**.
- Having Experience in working with Spring MVC in developing web-based applications.
- Experience Monolithic with Service architecture in project and good knowledge in Traditional monolithic architecture and **Microservices** architecture.
- Having knowledge on Spring MVC Features. Experience in working with Spring AOP to differentiate cross cutting concern from primary business logic like logging, caching etc.
- Having Knowledge on **Spring Security** and Spring Transaction. Integrated spring with hibernate in project.
- Having experience in publishing web services that include several components like WSDL, SOAP, Axis2 and **JAX-RS**. Experience of developing both SOAP (JAX-WS) web services including provider and client end in enterprise application development.
- Implemented on WS-Security , WS-Policy and REST Security. Experienced in XML parsers like JAX-P (SAX, DOM, STRAX) and JAX-B.
- Having experience on client-side technology like Angular 1.x, **Angular** 7+ and Redux framework.
- Experience on **Java 8** features like steaming api, lamda expression etc.
- Experienced with both **SQL (PostgreSQL, MySQL, MSSQL Server) and NoSQL (MongoDB, Couchbase)** databases for robust, scalable, and flexible data storage solutions.

WORK HISTORY

Senior Software Engineer, 06/2021 to Current
Thomson Reuters - Bengaluru, India

- Project: Jetstream Editorial Tool
- Environment: Java, Spring Boot, Angular 7,Spring IOC, Spring AOP, Spring Batch, Spring data JPA, Spring security, Oracle, Git, Gradle, Junit, Log4j, Jenkins, ActiveMQ, IBM MQ.
- Contributing to a critical **content publishing tool**, developing and maintaining highly-available enterprise applications.

SKILLS

Programming Language: Java

DB Languages: SQL, HQL, MongoDB, Redis

Application monitoring: Grafana, Datadog

DevOps: Kubernetes, Docker, Jenkins

Web Technologies: JavaScript, Xml, AngularJS, Angular7, Redux

Big Data toolset: Elastic Search, Kafka

Distributed Technology: JAX-WS (Axis2), SOAP, WSDL

Parsing Technology: JAX-p (SAX, DOM)

Binding Technology: JAX-B

Servers: Tomcat 9+

Framework: Spring 5.0, Spring boot 2.0

ORM Technology: Hibernate 5.1, JPA

IDE Software: Eclipse, STS, IntelliJ, Visual Studio Code

Logging Tool: Log4j, Sl4j

Build Tool: Maven, Gradle

Design pattern: Factory method, Builder, Singleton, Prototype Abstract factory

Cloud Technology: AWS

- Building scalable backend services and batch jobs using **Java, Spring Boot, Spring Batch, Spring Data JPA, Spring Security, Oracle**, and **Message Queues (MQ)**.
- Developing microservices with secure, event-driven, and transactional workflows, deployed in a scalable environment to ensure high availability and resilience.
- Implementing CI/CD pipelines and monitoring solutions using **Datadog, Gradle, Jenkins,** and **Log4j** for logging and alerting.
- Conducted code reviews to ensure adherence to best practices and maintain high standards of quality.

Associate Application Developer Engineer, 11/2018 to 06/2021
Unisys India Pvt. Ltd - Bangalore

- Project: ServiceNow management tool
- Environment: Java, Spring Boot, Spring IOC, Spring AOP, Spring MVC, Spring data JPA, GitHub, MAVEN, Junit, Oracle, Log4j, Spring Security, Angular 4, NodeJS, Jenkins.
- Working with **Spring IOC**, **Spring MVC** and **Spring boot** rest
- Designed and Implemented **Consumer** and **Subscriber** using **Kafka**.
- Involved in various phases of Software Development such as modeling, system analysis and design.
- Implemented multithreading for a complex execution.
- Developed scalable applications using agile methodologies for timely project delivery.

EDUCATION

B. Tech, CSE, 01/2016
CV Raman College of Engineering, BPUT - Bhubaneswar, Odisha
